## Goal of the Game

The goal of the game is to reach the end of the map before the other player. This can be done by using strategy to out maneuver your opponent

## Setup Rules

Both players will set the map so that the starting positions are facing themselves.Each player will roll two D6 dice, whoever has the lowest sum goes first. Each player will start with (2) Block Pieces (1) Double rolls (1) Space swap and (2) Trap. At the start of your first turn, place your character piece on the starting position.

## Gameplay Rules

- At the start of your turn, you will roll two D6 dice, take the value from **one** of the dice which will determine how many spaces you move.
- Each player can use (1) Action Piece per turn. once played, the action Piece must be resolved unless negated by a block Piece.
- Action Pieces are not required to be played every turn. Holding Action Pieces can add a tactical advantage for you to use when most optimal.

**Action Pieces:**

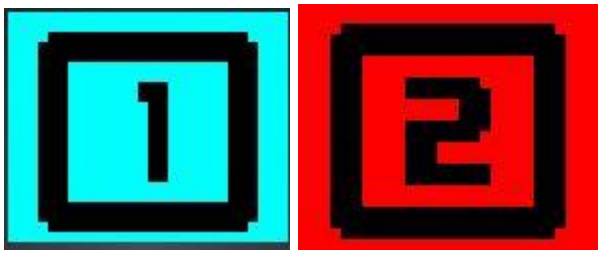

- Block- Block another players action Pieces , this Pieces  can be used during your opponent's turn.
- Space swap- Switch respective places with the opponent on your side of the map. (Ex: You play the Pieces  while your opponent is on space 8 and you are on 4. You will go to space 8 on your side of the map and they will go to 4 on their side.) **[Can only be used on your first 5 turns]**
- Double roll-  At the start of your NEXT turn, you may roll the D6 Die Twice, add the totals together and move accordingly/
- Trap - one a piece of paper, write down 3 spaces on the map corresponding a number (EX: space 1, you write down 1). If the opponent lands on one of those spaces, their next turn is skipped.

## End Condition Rules

The game ends when one of the players reaches the end of the board marked “END”.
